Allowable Subject Matter

1. Claims 1-20 are allowed.
2. The following is an examiner's statement of reasons for allowance: There is no teaching or suggestion in the prior art of the claimed combination having the right crank being crimp-fastened to the crankshaft by installing the second portion of the crankshaft into the engagement bore such that a gap is formed between the first portion and the engagement bore, and pressing the periphery of the engagement bore from the second surface toward the first surface in the axial direction of the crankshaft such that a pressed portion bulges radially inward and an annular space is formed between the crankshaft and the engagement bore; re claim 5, the engagement bore having the second portion received therein with the base end having a deformed pressed portion that is crimp fastened to the second portion of the crankshaft, the engagement bore having a maximum axial length that is shorter than a maximum diameter of the second portion of the crankshaft; re claim 19, the second portion of the crankshaft being crimp fastened in the engagement bore by a deformed pressing portion of the sprocket mounting part that bulges radially inward of the larger diameter of the second portion with an annular recess being disposed in the sprocket mounting part radially between the first portion and the engagement bore of the sprocket mounting part.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
